Tidymodels summer book club

R-Ladies Philly is launching a series of bookclub meetups to promote community-supported learning experiences.

The nominated book for this year is "An Introduction to Statistical Learning (ISLR)" (https://www.statlearning.com/).

We will focus on application for tidymodels using the lab exercises that were kindly authored by Emil Hvitfeldt (https://emilhvitfeldt.github.io/ISLR-tidymodels-labs/index.html).

Everyone is welcome to participate in the bookclub. To enhance the learning experience, **we are looking for volunteers to lead the bookclub at each monthly meetup.**

Fill out this form to sign up!

Michelle Chiu

Michelle is a graduate student in the Cognition and Neuroscience PhD Program at Temple University. Her research broadly looks at digital media and risky decision making using a behavioral and neuroimaging approach. In her free time, she enjoys exploring the Philly food scene and practicing yoga!

Live-tweet: @RLadiesPhilly, #RLadies

June Choe

June is a second year Ph.D. student in linguistics at the University of Pennsylvania, studying language acquisition and human sentence processing. Outside of research, June spends his free time pursuing his hobby in data visualization, reading about its design principles and code-based implementations.

Jessie Pluto

Jessie Pluto is a senior manager of a strategic analytics team at Comcast, supporting video engagement and content strategy. Jessie loves being an analyst in the TV-space, automating workflows, and using R to build functions, packages, visualizations and reports. Outside of work Jessie likes to spends her free time on long walks listening to podcasts and audiobooks, hiking with her dog, and watching TV.
